| • React | • Teamwork | • MongoDB |
| • Node.js | • JavaScript | • Communication |
| • Redux | • Jest | • HTML/CSS |

EXPERIENCE

Full Stack JavaScript Developer, TechAgeCompanies, Mar 2022 – Current, NAIROBI, Nairobi

- Writing code, testing, debugging, deploying, and monitoring internal systems.
- Reduced deployment time by over 50% reducing cost of business while also increasing developer productivity.
- Improved site performance through image, code splitting to reduce load time of the application.
- Designed APIs to allow outside applications and sites to interact smoothly with websites.

Lead Frontend Developer, HNG Internship, Sep 2022 – Nov 2022, Remote, Nigeria.

- Implemented a dashboard to display business data and enable users to analyze processes in different business sectors using react, Google Charts and Material UI.
- Conducted regular code reviews, meetings, and pair programming sessions with developers, the DevOps team, product managers, and designers to enhance code quality and reusability, and maintainability.
- Writing unit tests in jest and ensuring everything is working end-to-end.
- Contributed to web3 SaaS v2 application projected to be used by 100,000 Monthly Active Users.
- Developed web applications using agile and continuous delivery processes to refine code quality and improvement.
- Reviewed proposed UI and UX designs for technical feasibility by collaborating with back-end development personnel.

Web Development Consultant, Hybrid Marketing | E-COMMERCE BASED FREELANCE, May 2020 – Jun 2022, NAIROBI

- Factor SEO to drive traffic to businesses. This saw at least 20 more customers on a weekly average.
- Design changes to improve the existing e-commerce platform user experience, which led to decrease in drop off rate in websites.

EDUCATION

Bachelor of Science, Computer Science
Zetech University – Ruiru

AWARDS

- AWS Impact+ Hackathon 2022 on climate change
- Awarded by AWS, Stanbic Bank, and iLab Africa.
 - Worked with IoT and AWS cloud.
