Summary Statement

I'm a Frontend Software developer with 2+ years of experience. I have increased code delivery speed by 7%, enhanced site speed by 11%, and boosted site relevance with SEO by 15% in 6 months while regularly training novices. I am seeking to leverage proven leadership and expertise to become the next senior software engineer.

Work Experience

Frontend Software Developer, Hybrid Marketing Group
Hybrid Marketing Group, Nairobi, KE
May 2020 – June 2022

- I formed and guided a team on various tasks, including Design, Development and Marketing.
- I oversaw the redesign of a website, added heatmaps and boosted SEO leading to 38% sales increase.
- I developed, reviewed, and delivered websites with 100% on-time record and according to service level objectives.
- I integrated various payments methods such as Stripe and PayPal.

Property Manager, John's Apartments
John's Apartments, Nairobi, KE
July 2020 – Present

- I collect and manage rent, solve internal conflicts, identify areas affecting the tenants and solving any found issues.
- I Initiate projects that upgrade the apartments, and maintaining the apartments.
- I establish trust and understanding in everybody for a comfortable home environment for everyone.
- I seek feedback from tenants about how new implementations may or have affected them.
